

**An Explanation.**

Twelve seasons—the most advantageous time for the Palais Royal representatives to visit the mills and factories. The results—Ample quantities, linked with lowest prices. This page is most eloquent proof.

# THE PALAIS ROYAL

**The Difference.**

At this season the rule is—very badly broken stocks of rejected colors, abnormal sizes, etc. The Palais Royal's "Mill and Factory Sale" creates an exception. The difference is great.

## 84c for \$1, \$1.25 and \$1.50 Undergarments.

The makers of lingerie are now starting on the garments for May-June sales. Their surplus old stock and the samples lately carried by their "drummers" are secured so advantageously that best of \$1.00, \$1.25 and \$1.50 garments are offered at 84c for choice. Note the Palais Royal prophecy—the May-June sale of Lingerie will not contain bargains anything like as good. It's really no prophecy, but merely irrefutable logic—based on the fact of cottons, embroideries and laces being much higher in price than they were. The Palais Royal is not in the habit of crying "wolf," and is listened to when the cry is heard. Tomorrow will see the distribution of the season's best bargains. There'll be all sizes, including "out" sizes, and there will not be one garment skimmed in any respect. Some are elaborately trimmed.

**These Boxes, 10c.**

Boxes used in pyrographic work. Well made, of wood, etched for "burning." Ten cents is a special price, and the right is reserved to limit the quantity allowed each purchaser.

**19c and 25c for Larger Pieces.**

Choice of Book Racks, Letter Cases, Tie Racks, Whisk Holders, Photo Frames, Jewel Boxes, Match Cases, etc., etc.

**20% Discount on Largest Pieces.**

Choice of Tables, Writing Desks, Steins, Plate Racks, Book Cases, Cabinets, Umbrella Stands, Dutch Stools, Shirt-waist Boxes, Clocks, Vases, Tobacco Jars, Photo Boxes, Zinc-lined Cigar Boxes, Foot Stools, etc., etc. Select the piece you fancy and look for the price mark. You'll note it's less than usually asked. Deduct one-fifth from this low price.

**Pyrographic Apparatus, \$1.**

Fitted with superior "points." Good value at \$1.50. These sets are very scarce and a prompt reply is advised.

**Choice for \$1.98.****Some Worth \$3.00.**

The factory owners are in just as bad a predicament as is the Palais Royal proprietor—the season opened with very good Waists at the prices, and then comes a raise in cost of materials, so that higher prices of inferior garments are inevitable. The Waists now offered at \$1.98 are the samples used in the show rooms and on "the road"—they can be no longer utilized, because they cannot be reproduced at former prices. They came here at a low price. It's a bargain feast for Palais Royal patrons, one that is not likely to be repeated for a long while. Note that every Waist is a latest moment style and trimmed with the elaboration that will be absent in later-made garments offered at a similar price.
